

Prescient Global Solutions

a dba of Prescient Technologies

Tomorrow's Solutions, Today

Full-Spectrum Language Services

With over 50 contracts and over \$15M in total revenue, Prescient Global Solutions, a dba of Prescient Technologies, is a top 5 small business provider of language services to multiple federal agencies for the last 5 years. A full-spectrum language services provider, PGS provides sign language, document translation, phone and video interpreting, and language interpreting in **over 200 languages to 24 agencies in 30 states**

Quality Driven With dual certifications in ISO 9001 and 17100, we are in the **less than 1% of small business providers with both certifications**. Our translation services erased a 3-year backlog in 10 months, 99% on-time submissions, and higher than Six Sigma quality.

Mission Focused Staffed with 25% former military, we are driven to make every project successful. We have worked with law enforcement, military and unaccompanied minors nationwide. Working in crisis and post-disaster areas, Prescient set up and staffed a worldwide interpreting network in less than 48 hours, eliminated 3-year backlog in 10 months, and staffed personnel where they were previously impossible to find. We make the impossible seem ordinary in language services.

What Can Prescient do for my Organization?

Whatever your need, whether it is thousands of hours or just one, we provide language and accessibility services for your clients and employees.

We have provided reasonable accommodation services for Deaf/Hard of Hearing employees, interpreting for legal, medical, and professional settings, and translation of everything from forms, to medical records, to entire textbooks into over 200 languages.

We have numerous rare language interpreters and translators in languages such as such as Mayan, African, and Asian languages and dialects available for border support, asylum, legal, and medical appointments.
